

Colin Aebig – I have lived in Rosthern for 41 years, raising a family of 3 with my wife Laurie. I am semi retired and operate a small seasonal business. Previously, I was employed for 34 years with the Town of Rosthern as Outside Superintendent.

Having been the Public Works Chairman for the past 9 months was a truly great experience. Collectively as Council, we did move forward and complete many projects this past summer including sidewalk repairs and replacement, road resurfacing, revitalization of Centennial Park, and landscaping the berm, buffer, and boulevards at 12th Street with the completion of the new Medical Clinic. We will strive to continue making our voices heard to construct a new hospital.

Moving forward, it will be a very exciting time for our next Council. I feel that my strength with technical support will be a great contribution. If re-elected, I am willing and ready to commit to the time and effort to get through these next few years and continue to grow the Town. This community will attract many visitors and is a place we can all be proud to call home. I enjoyed representing the citizens of Rosthern with their concerns and input.
